

EMAP 2 / ERASMUS MUNDUS ACTIVE PARTICIPATION Vol. 2

FUTURE EMMC CONSORTIA TRAINING NEEDS

- Curriculum Development
- Organizational and Administrative Know How of International Study Programmes
- Research Development in International Context
- Application process for EM Master and strategies for a successful application
- Consultations and guidance on our project proposal
- Get advice from running the Erasmus Mundus programmes
- Understanding the programme key points, training to the programme details
- How to elaborate the financial model which can be reasonable for all partners
- Best practices of the management of the application process
- Information about fixing tuition fee and its flexibility for different kind of students, setting a sustainable budget
- Insight on what the EACEA / the evaluation committee expect from a EM proposal, tips and recommendations as to how the consortium should angle and focus on in its proposal
- To discuss Award Criteria step by step and what kind of annexes should be included in the proposal
- Participation of third country HEIs in the consortium
- To expand knowledge on drawing up a successful proposal
- To establish closer contacts with institutions already dealing with joint studies and get a view to potential problems that may appear in this kind of project
